

Welcome to **NDUTU WILDERNESS CAMP**

Welcome to a place of wonder

Our seasonal Ndutu Wilderness Camp is your cosy hideaway in the heart of the Ndutu plains, perfectly positioned for calving season on the surrounding grassy plains. Tucked beneath shady trees on a private site, this intimate camp features ten spacious tents. Known for its warm hospitality and hearty meals, it's the perfect place to unwind and dine beneath starry African skies. Thoughtfully designed with sustainability in mind, the camp runs on solar power and uses gravity-fed, solar-heated showers to help conserve water and minimise its impact on the environment.

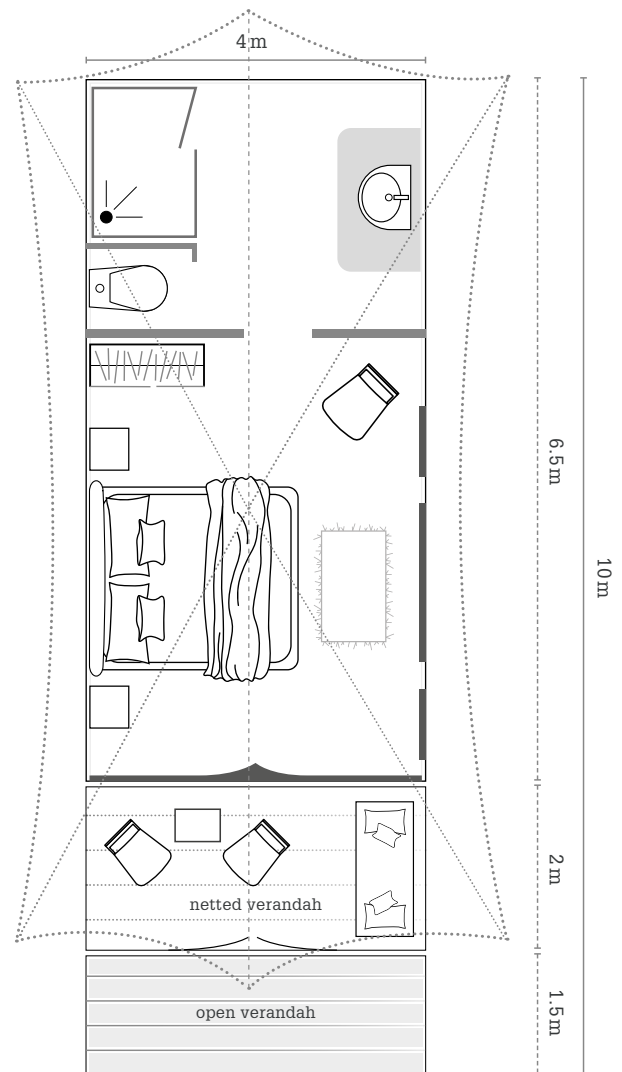

REST EASY IN SECLUDED COMFORT

Ten generously sized tents (10m x 4m) offer a blend of comfort and privacy. Inside, you'll find a comfortable bed with quality linen, and an en-suite bathroom with vanity basin, gravity-fed shower and toilet. Drift off to the sounds of the wild and wake to a steaming cup of tea or coffee delivered to your tent, ideal for sipping on your private verandah which features a day bed, plus chairs and table. Our family tent is ideal for families with young children (min age 6 years).

YOUR STAY MATTERS

A portion of every night spent on safari with us contributes to our Sustainable Tourism Fund, supporting projects like the [Kilimanjaro Tree Project](#) and [The Serengeti De-snaring Programme](#).

“

I can't say enough! You can't be in a better place during the migration, and what they were able to provide in the bush was frankly astonishing. Our large tent was spotless, meals delicious and 'bush television' under the stars a highlight. The staff are all wonderful. ”
